

Monthly Safety Meeting

In keeping with the FAA's current emphasis on Risk Management and Decision Making, Pete McElvain (FAASTeam Representative, former Air Force Pilot, current Corporate Pilot, and CFII/MEII) has prepared a program entitled "Big Sky Theory Breakdown." He will address and highlight issues relating to a mid-air accident in busy airspace. As an added bonus, he will conclude with an open-forum discussion on the application of these issues to the Wichita Falls and surrounding airspace. Wings credit will be awarded to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
